- Gujarati

ABOUT ME

Dedicated **.NET Full Stack Developer** with **3+ years of professional experience** at Microvista Technologies Pvt. Ltd., specialising in enterprise-grade web applications across the full development lifecycle. Proficient in ASP.NET Core MVC, RESTful API development, SignalR real-time communication, and multi-database environments including SQL Server, MySQL, and PostgreSQL. Passionate about writing clean, scalable, and maintainable code while continuously growing technically and professionally.

EXPERIENCE

Junior .NET Developer — Microvista Technologies Pvt. Ltd.

April 2023 – Present | Ahmedabad, Gujarat

- Designed, developed, and consumed **RESTful APIs** to enhance application functionality and streamline data flow across modules.
- Led end-to-end delivery of key features across **frontend (HTML/CSS/Bootstrap/JS)** and **backend (ASP.NET Core, C#, EF Core)**.
- Built an **XML-based submission and validation engine** integrated with dynamic HTML report generation for regulatory compliance.
- Developed an **automated penalty calculation engine** with email notifications, reducing manual compliance effort significantly.
- Implemented a **Single Filing API** to standardize data communication between BSE and NSE exchanges.
- Optimised SQL queries and application logic, improving overall **system performance and code maintainability**.

EDUCATION

B.Tech in Computer Engineering

Silver Oak University, Ahmedabad

CGPA: 9.46 / 10

PROJECTS (SELF-CREATED)

E-Commerce Platform

ASP.NET Core MVC | SQL Server | EF Core | Bootstrap

Full-featured online store with product listings, user authentication, cart management, and order tracking with admin panel.

Real-Time Chat Application

ASP.NET Core | SignalR | JavaScript

Web-based chat app with user presence tracking, private & public messaging, and a modern responsive UI.

Task Management System

ASP.NET Core MVC | EF Core | SQL Server

Multi-user task tracker with roles, deadlines, and status filters built for scalability and maintainability.

PROJECTS (PREVIOUS COMPANY)

Half-Yearly & Annual Filing Submission System

ASP.NET Web App | JSON | SQL Server

Developed a dynamic filing system for half-yearly and annual submissions using JSON-driven forms with dynamic field management and HTML generation.

Automation Penalty System

C# | SQL Server | Email Service

Automated engine calculating penalties based on submission delays and compliance issues with email alerts sent to stakeholders.

Single Filing API

.NET Core API | REST | JSON

Secure API bridging submission flow between BSE and NSE exchanges, ensuring standardized and consistent data handling.

Admin Dashboard

ASP.NET Core MVC | EPPlus | Bootstrap

Admin panel with MIS reports, submission analytics, and member activity tracking with export functionality to Excel and PDF.

ACHIEVEMENTS

Employee of the Month

Recognized for outstanding performance and key contributions to team success.

March 2024 | Microvista Technologies Pvt. Ltd.

Emerging Talent of the Year

Awarded for exceptional skills and strong commitment to learning and growth in software development.

2023–24 | Microvista Technologies Pvt. Ltd.
